A TOUCH OF NATURE.—A favored few who happened to be at the R. & O. depot on Thursday evening were witnesses of a charming little scene that will be long in pleasant remembrance. The miscellaneous crowd was assembled waiting for the train from the Esst, and among the people was a group of girls, one of whom was so resilous, and eager, and pretty in her watchfulness that she could not have said more plainly in words than she did by her actions, that her heart was full of some dear expected arrival. The train at length rumbled into the depot, and a pleasant-looking eldery gentleman and lady, evidently husband and wife, returning from a long journey, appeared among the passengers. As they stepped from the car the bystanders were conscious of a rush, and a futter of must have a supported and all that goes to make up the toilet of the mundane angel, accompanied by the prettiest little scream imagnable. waiting for the train from the East, and ov the prettiest little scream imaginable by the prettiest little scream imaginable, half cry, half laugh, and the girl, almost a woman; threw herself into the old lady's arms and sobbed, "Mother! mother! mother! as if her heart were breaking; and yet not a soul there but knew the fullness of her joy, and sympathized with it. A MINER'S MINERY.—Fred. Young, who resides on Fourteenth street, South Side, recensity returned from Omaha, coming to this city by way of Wheeling and little Washington. He had with him seven peands of gold dust, worth 562 per young, \$200 in greenbacks and two revolvers, all of which were put up in a gum coat. At little Washington he laid the coat and contents in a corper in a store and left it for a short time. When he returned he found it had been taken away and the store-keeper said a man had called in who represented himself as Young's companion and had taken it. The stranger was described by the store-keeper and Young went in search of him. On the road near Cannonsburg he came across the thief, who told Young to wait until he went into a house and he would come out and go with him to where the articles were. Young waited outside, but the stranger did not return. He passed out of the house by another dor and departed on his travels.

Every man seemed at the instant to remember that he was an American citinen, even though the Centennial year saw him behind the bars. The Puddless—So far as we can learn from the Wheeling papers, there is no prospect of the mill proprietors there granting the twenty-five cents advance which the puddlers have struck for, not at present at any rate.
